Technical information

The technical data in the tables are minimum ordering information. For complete Information for your specific application, please see the technical data sheets.

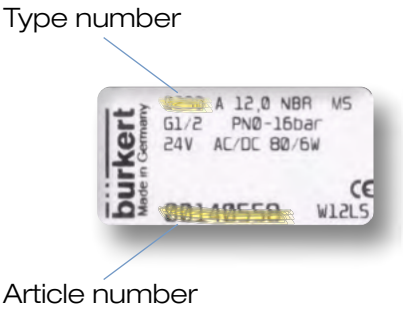

All the technical data presented in this catalogue is valid at the time of printing. As we are continuously improving and developing our products, we reserve the right to introduce modifications to the technical data at any time. As a consequence, we cannot accept legal liability for the following information, nor for any printing mistakes that may have occurred.

The texts contained in this publication, photographs, technical drawings and any other additional materials are copyrighted property of Christian Bürkert GmbH & Co. KG. Any further use in print or electronic media without express permission or any form of reproduction, translation, recording on microfilm or saving in electronic systems without written permission of the Christian Bürkert GmbH & Co. KG is prohibited.

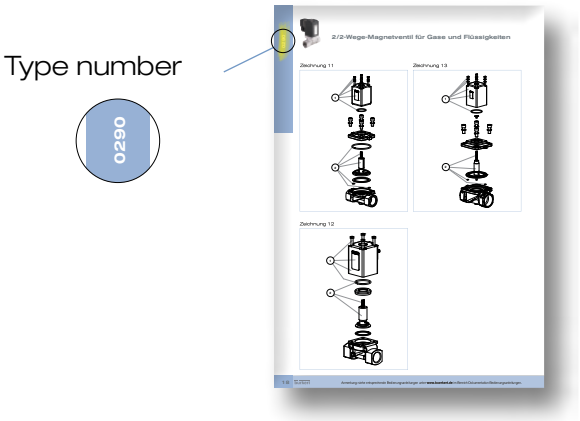

Christian Bürkert GmbH & Co. KG
Fluid Control Systems
Christian-Bürkert-Straße 13-17
DE-74653 Ingelfingen

How to find the correct spare and repalcement part.

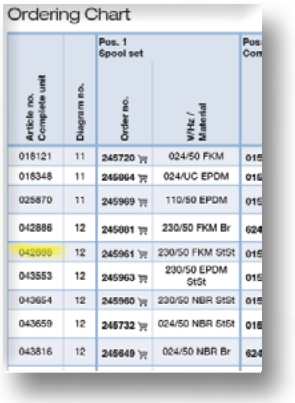

1 You need type and item number (see label on the full product).

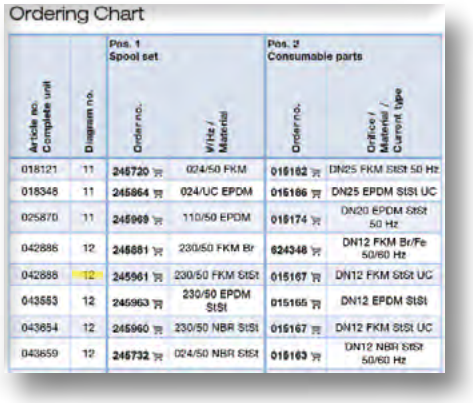

2 The pages of the catalogue are arranged in ascending numerical type number.

3 The rows in the tables are arranged in numerical ascending part numbers.

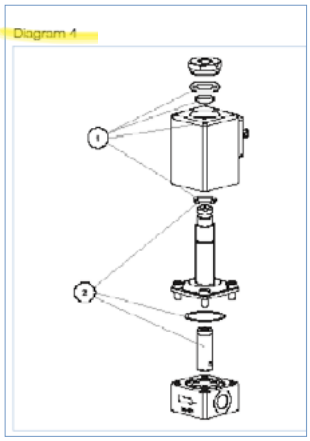

4 In the second column next to the item number is the appropriate drawing number.

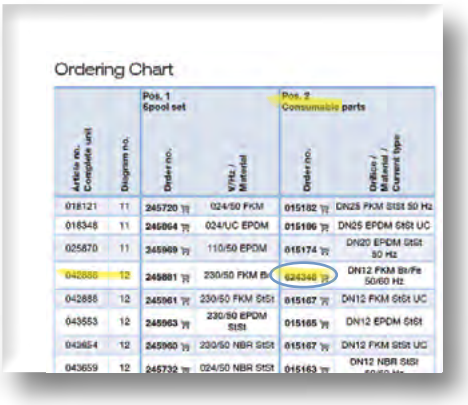

5 Select the drawing of the desired block with the corresponding item number.

(In some cases the pages for the drawings fold out)

6 At the point where these two elements intersect you will find the appropriate article number of the required spare part.

Full Service Excellence from Bürkert

As a competent partner for your system solution and our products Bürkert offers, in addition to the engineering and the service that accompanies their systems, the complete product life cycle - **Full Service Excellence.**

This holistic service program provides you with an individual service module that is specifically tailored to your specific requirements.

The fitness program
for your complete system.

The maintenance modules

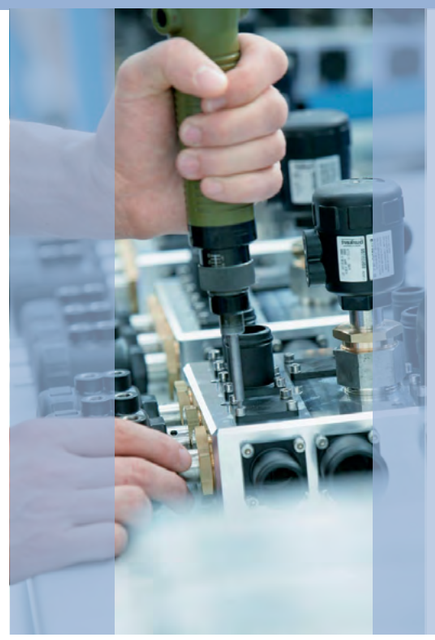

- ✓ **Free screening plant,** see page 37
- ✓ **Modernization of facilities**, see page 91
- ✓ **Industrial Full Service**, see page 106
- ✓ **Production support commissioning**, see page 132
- ✓ **Maintenance / Revision**, see page 147
- ✓ **On-site calibration**, see page 181
- ✓ **Fault elimination (fast response)**, see page 193
- ✓ **Worldwide utilisation planning**, see page 199
- ✓ **Reference measurement,** see page 207
- ✓ **Stock of spare parts**, see page 214
- ✓ **Cost reduction through service packages**

Note: see corresponding manuals on **www.burkert.com** under the field, documentation manuals.

If you do not find anything there or have further questions, please call **+49 7940 10 91 100**.

Full Service Excellence from Bürkert

Advantages at a glance

- ✓ Value retention of your system
- ✓ Individually tailored maintenance contracts
- ✓ Cost transparency for a long period
- ✓ Straightforward handling
- ✓ Low self maintenance
- ✓ Shorter downtimes
- ✓ Guaranteed Resource Scheduling
- ✓ Expertise in the field of valve technology
- ✓ Availability

The Bürkert Technical Centre | **always there for you**

Telephone: +49 7940 10 91 110
Fax: +49 7940 10 91 428
Email: technik@burkert.com

Take your chance for a free plant screening and fill out the voucher or contact our technology centre direct.

Voucher

for a free system screening, including documentation and exact maintenance recommendation

We want full service excellence Bürkert know-how and accept your offer of free plant screening gladly. Please contact us for an appointment

Please detach and fax it to: +49 7940 10 91 428
Tel. appointment: +49 7940 10 91 110
or also per E-Mail: technik@burkert.com

More Minimum!

Our revolutionary TwinPower technology uses two coils. Therefore the size of our valves is reduced by up to 50 % – without any loss of performance.
More minimum for your great ideas.

Our solenoid valves type 6624 and type 6626 prove it:

Your system is running ...

...and without warning, it suddenly comes to a stand still!

This causes stress, time, and money. A chain is only as strong as its weakest link. However, just imagine if your process chain had no weaknesses, because your system was regularly maintained all year around by a partner who is one step ahead. Vulnerabilities would be identified and corrected early, before they caused unplanned downtime and great economic damage.

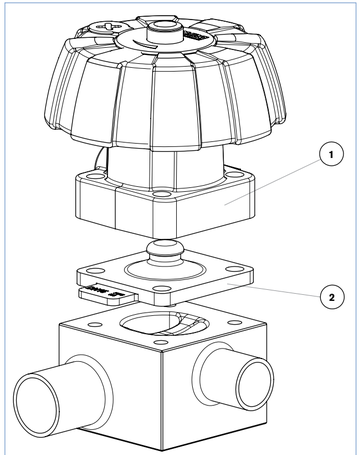

Note: see corresponding manuals on **www.bürkert.com** under the field, documentation manuals.

T-valve, manual override, stainless steel block

Full Service Excellence

Advantages at a glance

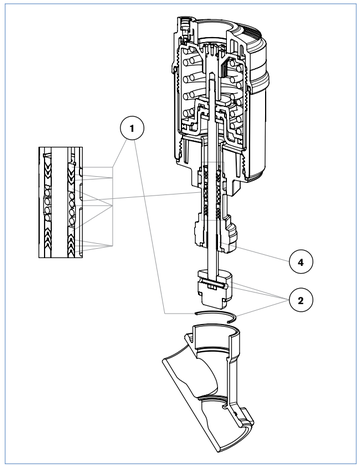

- ✓ Value for your investment
- ✓ Individually tailored maintenance contracts
- ✓ Cost transparency over a longer period
- ✓ Straightforward handling
- ✓ Low maintenance
- ✓ Shorter downtimes
- ✓ Guaranteed Resource Scheduling
- ✓ Expertise in the field of valve technology
- ✓ Accessibility

Perfect control was never so simple

Our newest generation of Solenoid control valves and control electronics can really make your life simpler. Ground-breaking innovation has created a remarkable range of high performance, reliable and accurate valves with orifices down to 0.05 mm. Previously unattainable turn down ratios and unlimited modularity give you complete process flexibility. Bürkert's R&D teams have redefined the dynamics of proportional solenoid valves to minimises friction and stick-slip effects to provide unmatchable span, repeatability and sensitivity.

Note: see corresponding manuals on **www.burkert.com** under the field, documentation manuals.

Mass Flow controller

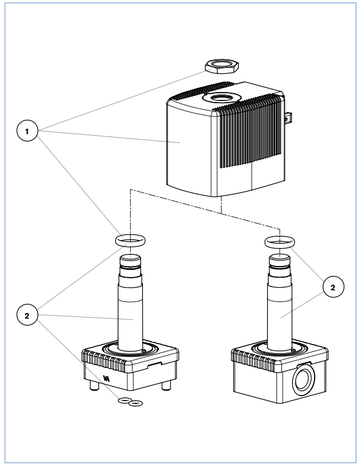

Whatever the application, it is all down to precise regulation, constant control and accurate metering of the gaseous media to ensure consistent and reproducible results. Our efficient and intelligent devices make gas handling simple.

2/2 way miniature solenoid valve

Note: see corresponding manuals on **www.burkert.com** under the field, documentation manuals.

Maintenance/Revisions

To preserve your system in top condition is our common goal.

Therefore, we offer you an individual, tailored maintenance package.

If you do not find anything there or have further questions, please call **+49 7940 10 91 100.**

2/2 way solenoid valve with servo diaphragm
